

1st International Breast Cancer Survivorship Conference

November, 2025

ABOUT US

The 1st International Breast Cancer Survivorship Conference will be a collaborative effort between Sunnybrook Health Sciences Centre Breast Cancer Survivorship Program and the Princess Margaret Cancer Centre Survivorship and Rehabilitation Program. The program will seek accreditation from the University of Toronto. It will take place in November 2025 (likely the 28th to 29th) and the focus will be on breast cancer survivorship needs. Our mission is to provide clinical updates on survivorship care, including prevention and management of treatment toxicities, and improve quality of life. Our vision is to create a global community working to improve the quality of life of breast cancer survivors. We envision a world where healthcare professionals are equipped with the knowledge, tools, and resources to provide patient-centred, evidence-based care that addresses the multifaceted needs of all breast cancer survivors, including those living with metastatic disease.
